

## **Science Homework for Parents - Due Wednesday, September 5**

**Email from Parent/Guardian** - Parents, please send me an email...

- 1, Subject should be **child's first and last name**
2. The message should include your contact numbers, best times, etc.

You are welcome to send any praise, suggestions on what works well with your child, funny stories, and anything you feel might be helpful for me to know. Please send it from the email address that is best to use when contacting you.

My address is keithd@gowcs.net

**Alternate assignment** is to just have your child bring a written version of this.

*While this assignment will not count toward your child's grade, it is an important step in establishing good communications between home and school for science.*

**Classroom Website** – **www.NeatScience.com** is the domain name that I have owned for over 20 years and contains everything from daily notes, handouts, announcements, and more. It is an open site with no login required.

**Note:** If you do not have **PowerSchool login** information please let the office know so that they can get a copy of that to you. It is important that your child's grades be checked at home at least weekly since PowerSchool has taken the place of progress reports.

**Textbook** - your child will have access to our online, interactive textbook. The link is on [www.NeatScience.com](http://www.NeatScience.com) and is called **IQWST Login**. As long as your child has logged into their Google account on that computer, the login for IQWST is automatic.

### **Remind**

I would urge you to sign up for the **Remind** messages for 8<sup>th</sup> Grade Science. There will not be many announcements but they will be important, such as test announcements.

Join **Remind** for this class by texting the class code **@3c77kk** to 81010

If you signed up for it last year, that class has been recycled and you will need to join again.

### **Syllabus**

The syllabus will be posted on **NeatScience.com** as well as being distributed in class.
